Performance Tests

2013 Ford F-650

Regular Cab XL (F6F)

Performance predictions in this report represent an estimate of vehicle performance based on standard operating conditions. Variations in customer equipment, load configuration, ambient conditions, and/or operator driving techniques can cause significant variations in vehicle performance. These values are not representative of results that may be shown in actual dynamometer tests. This report should therefore be used as a guide for comparative vehicle performance.

Performance Start Tests	Calculated	Desired

Re: Imperial Valley Enterprise Zone Expansion (Oberon Fuels)

The IVEZ JPA on March 21 approved a request from Oberon Fuels to expand the territory of the Imperial Valley Enterprise Zone to include their proposed site location north of Brawley. Oberon Fuels is headquartered in San Diego and is constructing a fuel processing facility at the corner of Kershaw and Rutherford north of Brawley. The site has been secured by the company through a long-term lease with an option for purchase. The property owner is aware and supportive of the expansion request.

Per the California Administrative Code title 25, section 8446.1.b.1 (article 10) regarding expansion of Enterprise Zones, a resolution from each governing body wherein the EZ is located is required approving the expansion, which would be the Imperial County Board of Supervisors and the Brawley City Council. For that reason, this matter is presented to the Board of Supervisors.

Site Expansion (APN 037-070-013) 7.12 acres: Oberon Fuels has been in the process of removing the prior structure on the site to develop their fuel processing station, specifically producing DME. The site is critical for the company's production, having a direct natural gas pipeline on the site. The site also is ideal being able to incorporate additional waste from the feed lot adjacent to the property for fuel production.

Oberon Fuels will hire 10 to 12 full time employees at the site and will invest $14.5 million locally. The expansion meets all the requirements and fits within the IVEZ strategy per the MOU with the state. This will be a significant investment ($14.5 million) in Imperial County and will produce 10-12 new full-time jobs.

This will be a non-contiguous expansion. While there are parcels zoned industrial near the proposed expansion, they are currently non-developed or the use has turned to only related to cultivation, which would not qualify for expansion.

The IVEZ has 1098.88 acres still available for expansion.
