July 1, 2025

To the Citizens of the City of Brawley and Members of the City Council,

I am pleased to present the Adopted Fiscal Year 2025/26 Budget for the City of Brawley and the Successor Agency to the Brawley Community Redevelopment Agency.

This budget document outlines spending authority for the period beginning July 1, 2025, through June 30, 2026, across all city-controlled funds. The total citywide budget includes \$65 million in appropriations (expenditures and internal transfers), supported by \$60.2 million in projected revenue.

The FY2025/26 Citywide Budget is balanced and includes a modest operating surplus of \$70,529. The City was able to maintain a balanced budget and sustain essential services in part due to the additional tax revenue made possible by voter approval of Measure J during the November General Election. This year's budget reflects a comprehensive commitment to enhancing essential services, with a focus on Public Safety, Street and Facility Improvements, and expanded Recreation Programs.

To encourage community input and enhance transparency, the proposed budget was presented at multiple public meetings prior to its adoption. Resource allocations were guided by regulatory requirements, community priorities, and critical capital improvement needs.

Operating Budget

The City's primary financial plans consist of the General Fund Operating Budget and the Capital Improvement Program (CIP). The General Fund anticipates revenues of \$26,862,692 and appropriates \$26,792,163 in expenditures, resulting in a surplus of \$70,529. The budget continues to support core services, including police and fire protection, recreational programs and parks, community facilities (such as the library and senior center), and other essential city services.

Capital Improvement Program

The FY2025/26 CIP Budget totals \$20,566,036 and encompasses 54 projects. These include improvements in water and wastewater systems, roads and pedestrian infrastructure, and the purchase of heavy equipment. The focus remains on enhancing critical utility services and improving public rights-of-way throughout the City.

General Fund Reserves

The City remains committed to long-term fiscal stability and prudent financial management. As of June 30, 2025, the General Fund's unassigned reserves are projected to be \$8,832,548, with an anticipated decrease of \$129,471 in FY2025/26, bringing the year-end balance to \$8,703,077. The City's reserve target is 15% of budgeted General Fund expenditures—equivalent to \$4,018,824. The City will continue to monitor reserve levels and strive to meet this goal through partnerships, revenue collection efforts, and operational efficiencies.

I would like to express my sincere appreciation to the City Council for its leadership, direction, and deep understanding of City operations throughout this year's budget process. I also want to thank every City employee for their commitment, diligence, and continued service to the Brawley community. Most importantly, I want to extend my gratitude to the residents of Brawley for their trust and support. The approval of Measure J has made a meaningful impact on our ability to provide and enhance essential services. The FY2025/26 Budget reflects our shared dedication to building a safer, stronger, and more vibrant community.

Jimmy Duran Interim City Manager/Chief of Police

The Gann Limit is adjusted annually by multiplying the "Prior Year Gann Limit" (column 1) by the "% Change in Population" (column 4) and then by the greater of the "% Change in New Local Non-residential Construction or % Change in California Per Capita Income" (column 6 or 7). This Gann adjustment figure is then added to the prior year's limit amount to obtain the current year Gann limit amount in column 8. The U.S. CPI factor (column 5) was used in place of the non-residential construction (column 6) amount and the lower of the two factors, the U.S. CPI or Per Capita Income, for the calculation prior 'to FY 1990-91. The City has elected in column (2) and (3) to use the City population method versus the change in County population.

The Shaded boxes indicate the calculation factor that was used to calculate that year's Gann Limit.

GANN APPROPRIATION LIMIT ANALYSIS

In 1979, Proposition 4, the "Gann" initiative, was passed. The Proposition created Article XIIIB of the State Constitution placing limits on the amount of revenue which can be spent by all entities of Government.

The Gann limit is adjusted annually by the following two factors:

Annual population change and the greater of the change in:

- 1) State Per Capita Income, or
- 2) The Local Assessment roll for local non-residential construction.

When a City reaches this limit, excess tax revenue must be returned to the State or Citizens through a process of refunds, rebates, or other means that may be defined at that time. The Gann limit for the City of Brawley has increased steadily and still provides the City with a comfortable operating margin. The revenue collection and spending limit for the City of Brawley in FY 2025/26 is \$27.8 million . "Proceeds of taxes" are projected to be nearly \$17.4 million in FY 2025/26 allowing the City a margin of \$10.3 million.

On the graph below, the highest bars represent the spending limit and the lower bars represent the tax proceeds for the last nine years.

Economic Development Program Income Fund is used to track and recognize new and outstanding home rehabilitation loans. Funds are subject to Community Development Block Grant (CDBG) Housing Rehabilitation Program Guidelines, CDBG Homebuyer Programs Guidelines, and/or California Department of Housing and Community Development (HCD) depending on the funding received.

The Program is administered by the City who retains a contractual relationship with the California Department of Housing and Community Development (HCD) and AmeriNat to administer housing funds.

Loan repayments, which are usually unanticipated resulting from a home sale or refinancing are recognized when incurred as budget adjustments within a budget report.
